

I am very concerned about having fewer and fewer companies controlling our airwaves. It is hard enough to get different viewpoints out in the open. There should be more different companies rather than fewer that are allowed to use our airwaves. I would like to know what is being decided on June 2, 2003. Please send me information about this and what you see happening concerning your votes on June 2, 2003.

Thank you.

Sincerely,

Larry Beans
